## ABJ WELDING FAQ 2017

### WHERE?

ABJ Welding is situated in Hermanus, South Africa. It is 90 minutes from Cape Town International Airport. Transport can be arranged with prior booking.

### WHEN?

Courses are run throughout the year, with 3 weeks allocated per course, and only 6 students to maximise learning efficiency. Please see the Course Dates document.

### WHY?

The highly specialized course is designed for professional divers who want to obtain SMAW (Shielded Metal Arc Welding) skills, for both dry and underwater use. This consists of both theoretical and practical training: 40 hours dry welding, and 40 hours wet welding. This is to meet the requirements outlined in BSEN 15618-1:2002 and AWS D3.6-99.

### WHO?

The course is accredited by Speciality Welds with the WeldCraft-Pro training following the IIW (International Institute of Welding) and EWF (European Welding Federation) guidelines for fillet welding. It is recognised by IMarEST (The Institute of Marine Engineering, Science and Technology) and certification is issued by EAL (EMTA) which is recognised internationally. After course examination the final plate welds are sent to an accredited examiner, where after the final course tickets will be sent.

### WHAT?

The following are needed on course: PPE (Personal Protection Equipment) clothing. This includes safety goggles, overall, gloves, safety boots. If anything is needed, it can be purchased at a local store. All training material and consumables will be provided. Also bring basic diving gear.

### DIVING TICKET / MEDICAL?

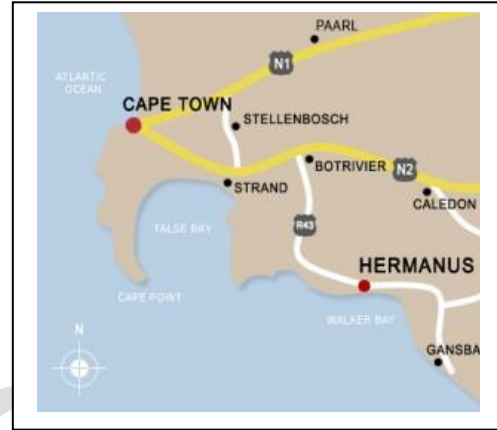

Yes a Class III or Class II diving ticket (or equivalent) will be needed with an in date diver medical certificate.
